

123NET PROVIDES ENTERPRISE DATA CENTER, NETWORK & VOICE SERVICES TO MICHIGAN BUSINESSES

Recovery Space

If your business is struck by a major disruption, how does your business react and continue to manage productively? This is one of the major questions and importance of having a Disaster Recovery (DR) plan that covers continued network and business operations.

Recovery Assurance

Disaster Recovery Space provides your business with assurance that, in the event of a misfortune, replacement equipment is installed, communications are working, and people have a place to gather and work. Complete your DR contingency with office space to augment your DR capabilities for systems and data.

Benefits

- Prevent revenue loss
- Local presence ensures quick access
- Remove single points of failure
- Eliminate business reputation loss
- Maintain productivity with critical operations
